For: FLAT PANEL DISPLAY HAVING AN  
ISOLATED EMI LAYER AND INTEGRAL  
HEATER AND THERMAL SENSOR

Attorney Docket: AME 1638-005A

---

Request for Reconsideration of  
Petition For Filing By Other Than All Inventors Under 37 C.F.R. 1.47(a)

Applicant, William R. Dunn hereby petitions the Commissioner to accept the filing of the above-identified U.S. Patent Application by American Panel Corporation, as the party to which the invention that is disclosed and claimed in said Patent Application rightfully belongs, and on behalf of inventor William R. Dunn as agent for the non-signing co-inventors.

A Declaration of William R. Dunn is attached hereto providing proof of the pertinent facts concerning the refusal of the co-inventors to join in the present application for patent and establishing that American Panel Corporation has a sufficient proprietary interest in this matter to make application on behalf of and as agent for the inventor, and showing that such action is necessary to preserve the rights of the parties and/or to prevent irreparable damage.

The names and addresses of the inventors refusing to join in this application, as required by 37 C.F.R. §1.47(b), are as follows: **Keuk-Sang Kwon**, #111-205, Woobangsincheonji Town, Seokjeok-myun, Chilgok-gun, Kyongsangbuk-do, Republic of Korea; and **Hyoung-Yol Park**, Junwon APT 101-1109, Bisan Dong, Kumi City Kyung Buk, South Korea, each citizens of the Republic of Korea.

The invention was developed in conjunction with and under the authorization of American Panel Corporation by its employee William R. Dunn, and the afore-named Keuk-Sang Kwon and Hyoung-Yol Park.

The Decision Refusing Status Under 37 CFR 1.47(a) mailed November 22, 2004, indicates that requirements (1) and (2) must be met. A new Declaration signed by co-

inventor William Dunn is enclosed stating that a copy of the application and drawings, as filed, were presented to the co-inventors together with the formal documents for signature. Additionally, a new Declaration in compliance with 37 CFR 1.63 and 1.64, signed by inventor William Dunn and including the signature blocks and home addresses of the remaining non-signing co-inventors is enclosed.

The Patent Application may be supplemented should Mr. Kwon and/or Mr. Park execute the required inventors' declaration, power of attorney, and assignment.

In view of Messrs. Kwon and Park having been presented with the complete application and drawings, as filed in the USPTO, and declining thus far to execute the papers required for filing the present patent application, William Dunn as the Assignor to American Panel Corporation is believed to be entitled to make such application on his own behalf.

In view of the Decision Refusing Status Under 37 CFR 1.47 (a) mailed November 22, 2004, such action clearly is necessary to preserve the pendency of the subject application, and the rights of American Panel Corporation. Otherwise, the rights of American Panel Corporation would not be preserved as the Patent Application would become abandoned.

Requirements (1) and (2) being the only grounds for rejection of the Petition, the undersigned respectfully submits that the Petition under 37 CFR 1.47(a) now may be entered, and that the application may proceed to prosecution.

The Commissioner hereby is authorized to charge any fees in connection with this submission to Deposit Account No. 19-4076. A duplicate of this document is enclosed.

Respectfully submitted,

Date: 21 Apr 2005
